- Up to 24 hour operation time before recharge

Total comfort
- Monitor the temperature in baby's room
- Remote activated night light and lullabies
- Stay connected with talk back

PHILIPS
AVENT
sense and simplicity

Highlights

ECO mode

ECO mode allows you to lower your energy consumption and transmission power

Zero interference

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and mobile phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby

Reassuring crystal clear sound

Hear every tiny giggle, gurgle and hiccup with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby anytime

Superior operating time

The small, rechargeable parent unit will give you the freedom of cordless roaming for up to 24 hours before re-charging is required

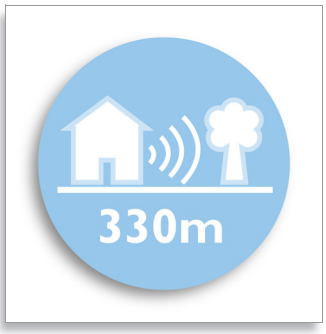
Digital temperature display

Your baby can't regulate its body temperature as well as you can and a slight change in temperature can make your baby restless. A special electronic temperature sensor will immediately alert you, through the digital display on the parent unit, if your baby's room becomes too hot or too cold

Adjustable sound sensitivity

Enables you to adjust the sound and volume levels, so you can hear every giggle, gurgle and hiccup

Rechargeable parent unit

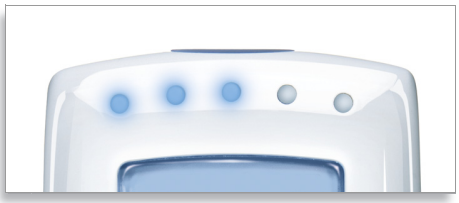


With a range of 330 m, belt clip and neck cord so you can be fully mobile in and around the home

Out of range/low power signals

Parent unit will alert when the power is low, or if you are out of range

LEDs light to signal noise



Lights are activated to indicate the level of sound in your baby's room. Even with the parent unit is muted, a sound alert will notify you when a set sound level is reached

Specifications

Technical specifications
- Operating temperature range: 10-40 °C
- Storage temperature range: 10-40 °C

Tuner/Reception/Transmission
- Frequency band: DECT
- Automatic channel selection
- Number of channels: 120
